Ordering Online

Many products are now available online at www.DiversAlertNetwork.org

Business Member discounts not available online.

Shipping Details

You can expect to receive your order within seven to 10 working days from the date the order was placed. Orders placed after 2 p.m. will not be processed until the next business day. Any back-ordered items will be shipped as soon as they are available. Please inform our representative if you do not want materials placed on back order.

Outside the United States and Canada

Please contact your Customer Service Representative for specific shipping details.

Before Ordering

- Please use the most current order form and price list.
- To avoid delays, please fill out the form completely, include product numbers, description, quantity and price. Include a contact phone number in the event we need to contact you.
- Choose a shipping method from the chart provided.
- Calculate and add appropriate shipping charges and sales tax.
- Prices are subject to change without notice.

Sales Tax

North Carolina residents must list a resale permit number or be subject to applicable sales tax. Non-residents shipping to or picking up orders in North Carolina are also subject to applicable sales taxes.

Ordering is Easy

- For fastest service, we recommend that you phone or fax your order. To order, call 1-877-532-6776 or fax +1-919-490-6630. Outside the USA call +1-919-684-2948 ext. 295.
- If you mail your order, send it to Business Membership, Divers Alert Network, 6 W. Colony Place, Durham, NC 27705-5588, USA.

Returning Products

No refunds or exchanges after 90 days. Please contact your Customer Service Representative prior to returning any materials to DAN.

The original order number must be clearly displayed on the outside of the package. Following these procedures will allow us to credit your account in a timely manner.

NOTE:

- Packages sent via regular mail cannot be traced.
- DAN cannot be held responsible for lost orders sent via regular mail.
- Any questions regarding shipping, please contact your Customer Service Representative.

Video Information

Unless otherwise stated, video products are formatted NTSC (National Television Standards Committee), the standard in North America, Japan, Canada and many South American countries. Video CDs are formatted in the .mpg format.

*Sales tax is waived when accompanied by a reseller's certificate.

Prices are subject to change without notice.

OXYGEN UNITS

Providing oxygen is one of the cornerstones of first aid for treating injuries. As you consider which DAN Oxygen Unit will best suit your needs, keep a few things in mind:

- How far from EMS services (or other help) will you be?
- How long will you need oxygen provided?
- How many people will depend on this oxygen unit?
- Do you need your case to be waterproof or water-resistant?
- Will you be traveling? Do you need to consider airline restrictions on oxygen tanks with attached valves?

Rescue Pak 601-4000

This convenient and lightweight unit is not only portable and durable; it also offers full protection for your O2 equipment with a Pelican 1450 case. Ideal for environments that are close to emergency response.

Delivery time: ±20 minutes
 Dimensions: 16"L x 13"W x 7"D
 Weight: 14 lbs.

Components:

- Pelican® 1450 waterproof case
- Brass multifunction regulator
- Demand valve w/hose
- M9 cylinder (248.22 liters) / (8.77 cu. ft.)
- Non-rebreather mask w/6 ft tubing
- Oronasal resuscitation mask
- Tru-Fit silicon mask

Rescue Pak Extended Care 601-1000

This unit offers a larger supply of O2 while still offering the full protection and convenience of a Pelican 1600 case. Good for situations when emergency care is not immediately available.

Delivery time: +60 minutes
 Dimensions: 23 1/4"L x 20 3/4"W x 9"D
 Weight: 29 lbs

Components:

- Pelican® 1600 waterproof case
- Brass multifunction regulator
- Demand valve w/hose
- Jumbo D cylinder (636 liters / 22.85 cu. ft.)
- Non-rebreather mask w/6 ft tubing
- Oronasal resuscitation mask
- Tru-Fit silicon mask

Canadian Rescue Pak Extended Care 601-1003

Dual Rescue Pak Extended Care 601-3000

For those looking for a larger supply of O2, this dual unit offers storage for 2 individual jumbo D cylinders in a Pelican 1600 case. This unit provides up to two hours of emergency oxygen.

Delivery time: +120 minutes
 Dimensions: 23 1/4"L x 20 3/4"W x 9"D
 Weight: 38 lbs

Components:

- Pelican® 1600 waterproof case
- Brass multifunction regulator
- Demand valve w/hose
- 2 Jumbo D cylinders (636 liters / 22.85 cu. ft.)
- Non-rebreather mask w/6 ft tubing
- Oronasal resuscitation mask
- Tru-Fit silicon mask

Canadian Dual Rescue Pak Extended Care 601-3003

Rescue Pak w/MTV 601-4100

MTV-100 Upgrade

Includes MTV-100, a flow restricted oxygen powered ventilator providing oxygen as a demand valve and can also be used to ventilate a non-breathing injured person.

Rescue Pak Extended Care w/MTV-100 601-1100

Canadian Rescue Pak Extended Care w/MTV-100 601-1103

Dual Rescue Pak Extended Care w/MTV-100 601-3100

Canadian Dual Rescue Pak Extended Care w/MTV-100 601-3103

OXYGEN UNITS (No Cylinders Included):

Charter Boat Oxygen Unit 601-9000

Components:

- Pelican® 1400 waterproof case
- Brass multifunction regulator with CGA-540 connector
- Demand valve with hose
- DAN oronasal resuscitation mask
- Wrench for CGA-540 connector
- Non-rebreather mask with 6-foot tubing

Charter Boat Oxygen Unit with MTV-100 601-9100

Components are the same as 601-9000, except demand valve is replaced with MTV-100.

- 1 cold compress
- 2 triangular bandages
- 1 accident report form w/ 1 pencil

First Aid Backpack w/O₂ and MTV-100 601-6100

MASKS

NEW
from
DAN

Nu Mask 611-9100

Due to its unique positioning inside the gum line, the NuMask IOM stays in place, forming a tight seal to any shaped face improving patient ventilation.

Non-Rebreather Mask 611-8100

Constant flow delivery device for conscious divers. This disposable mask provides oxygen for breathing divers who cannot tolerate demand valve oxygen regulators or when you have two divers who need emergency oxygen.

Silicone Tru-Fit Mask 611-8400

Designed for use with demand valve, creating a superior seal for the conscious diver.

SMART Bag 611-8700

Bag valve mask with over pressure sensor is used for resuscitation on a non breathing injured diver.

DAN Oronasal Resuscitation Mask 611-8300

With O₂ inlet (with strap) for mouth-to-mask ventilations, the mask provides additional oxygen to a non-breathing injured diver if used in conjunction with rescue breathing and constant-flow oxygen. Can also be used with demand valve or MTV-100.

Replacement One-Way Valve 611-8305 (for 611-8300)

Contains one-way valve and microbial filter.

DAN Rescue Key CPR Mask 631-2500

Suitable for both adults and children, the Rescue Key is a proven and easy-to-use barrier with a one-way valve that prevents direct mouth-to-mouth contact. Single use only. Latex-free, comes in a nylon case with key ring.

REGULATORS

Brass Multifunction Regulator 611-2000

With its durable body and heavy duty brass core, this regulator is designed to provide oxygen by both demand and constant flow delivery.

H Regulator w/ CGA-540 Fitting 611-2101

Brass multifunction regulator with CGA-540 connector

Hand-Wheel Wrench 611-7000

Used on H Regulator w/CGA-540 Fitting.

Metal and Rubber Oxygen Washer for Oxygen Regulators 611-9000

Wrench for H Regulator 611-2101

DEMAND VALVES

DAN Demand Valve w/ 6-Foot Hose 611-3000

Used to provide high concentration O₂ for conscious, injured divers.

Manually Triggered Ventilator (MTV-100) Demand Valve w/ 6-Foot Hose 611-3100

Flow-restricted oxygen-powered ventilator provides O₂ as both a Demand Valve and for an unconscious diver.

Green Hose for Demand Valve 611-6007

CYLINDERS

Jumbo D Cylinder 611-1010

This cylinder is used with DAN's Rescue Pak Extended Care, Dual Extended Care and Soft-Sided Extended Care oxygen units.

Canadian Jumbo-D Cylinder (with white shoulders) 611-1013

M9 Cylinder 611-1020

This cylinder is used with DAN's Rescue Pak and First Aid Backpack w/O₂ oxygen units.

FIRST AID KITS

DAN DSS-Coast Guardian First Aid Kit 631-1200

Housed in a Pelican 1400 case, this kit has all the required first aid supplies to meet the Coast Guard's minimum requirements for small passenger vessels. Ideal for diving professionals, dive centers and boats.

Features:

- Pelican® 1400 waterproof case

DAN Oronasal Resuscitation Mask 611-8300

This reusable and easy to clean CPR mask is designed to administer rescue breathes to a non-breathing victim. With O₂ inlet and replaceable one-way valve, this mask can be used in conjunction with a demand valve or MTV-100.

Features:

- Hard plastic protective case
- O₂ inlet
- Strap for secure fit
- Can be used with Demand Valve or MTV-100

DAN Otoscope 501-2400

Designed for basic ear exams in the field, this otoscope is easy store and ready to use.

Professional Stethoscope 611-8800

This is a lightweight, stainless steel professional stethoscope, with sleek design.

Blood Pressure Cuff 671-2500

Compact blood pressure cuff with storage case, is portable and durable.

Medication Replacement Pouch 631-2001

This is a basic medication replacement pouch to be used with any first aid kit. This medication replacement pouch is compatible with the Guardian Plus First Aid Kit and the Backpack First Aid Kit.

Contents:

- 2 ibuprofen (2/pkg)
- 6 diphenhydramine (antihistamine)
- 4 sting-relief pads
- 4 acetaminophen (2/pkg)
- 4 antibiotic ointments
- 2 antacids (2/pkg)
- 3 thermometers, disposable
- 1 antidiarrheal caplet
- 3 cortisone cream
- 1 antimicrobial towelette
- 1 hot compress
- 1 disposable razor

REPLACEMENT POUCHES

Bleeding/CPR Replacement Pouch 631-2002

Contents:

- 2 4" x 4" gauze pads (2/pkg)
- 1 8" x 10" trauma pad
- 3 antiseptic towelettes
- 1 pair nitrile gloves
- 1 accident report form w/ 1 pencil
- 1 ibuprofen (2/pkg)
- 3 safety pins
- 1 3" elastic bandage

Fractures/Sprains Replacement Pouch 631-2003

Contents:

- 1 cold compress
- 2 triangular bandages

Wound Care Replacement Pouch 631-2004

Contents:

- 1 20cc irrigation syringe with tip
- 5 providone iodine swabs

CPR TRAINING EQUIPMENT

Little Anne™ CPR Manikin 671-0100

The Little Anne manikin is a realistic, inexpensive, lightweight, adult CPR trainer that offers all the essential features. Designed with both the user and instructor in mind.

- Airway can be opened using head-tilt / chin-lift or jaw-thrust techniques
- Compression "clicker" provides audible confirmation of adequate compression depth
- Compression spring for consistent resistance
- 2 economical, disposable airways for quick and easy cleanup
- 2 removable, reusable faces

Little Anne™ CPR Manikin Face 671-0200

Removable face mask can be used on a one-per-student basis or continuously with normal disinfection between students.

Little Anne™ CPR Manikin Airway 671-0300

Disposable non-rebreathing airway with one-way valve is changed after each class for maximum instructor convenience and student safety.

Baby Anne™ Infant CPR Manikin 671-0400

A low-cost, lifelike infant CPR trainer.

Includes:

- 1 Manikin
- Soft pack
- 6 Airways
- 10 Foreign body practice objects
- Directions for use

Baby Anne™ CPR Manikin Face 671-0500

Removable face mask can be used on a one-per-student basis or continuously with normal disinfection between students.

Baby Anne™ CPR Manikin Airway 671-0600

Disposable non-rebreathing airway with one-way valve is changed after each class for maximum instructor convenience and student safety.

SUCTION DEVICES

Replacement Collection Jar Kit 671-2210

Includes:

- 1 disposable 300ml collection jar
- Cap
- 2 disposable suction cannulas (13mm and 6mm)

Rescuer MVP® Manual Vacuum Pump 671-2200

A lightweight, high-vacuum suction device powered with one-hand operation. Self-sealing 300ml canister design reduces cross-contamination risk. Maximum suction exceeds 500mmHg.

Includes:

- 1 vacuum pump
- Disposable collection jar
- Cap
- Disposable bag
- 2 disposable suction cannulas (13mm and 6mm)

Bulb Syringe 671-2300

For suction of infant airways

DAN Surface Signal Kit 641-1000

This 6' signaling sausage with 2" reflective strip has everything you need in a signaling device. Be seen, be heard and never stranded.

DAN Surface Signaling Kit Features:

- 6' orange sausage with 2" reflective strip
- Purge Valve
- LPI Attachment
- Velcro Mesh Storage Pocket
- Secondary lift bag with 30 lb lift capacity
- Velcro safety strap

3 Ways to Inflate:

- Orally
- Connecting to Low Pressure Inflator Hose
- Purge second stage into bottom opening of signaling device

Kit Comes With:

Khaki colored bucket style hat with red and navy DAN logo in center.

DAN Beanie 761-1006

Striped knit beanie with DAN logo.

TRAINING PROGRAMS AND PRODUCTS

DAN is here for you through Training, whether it's as a conduit to increasing individual providers' knowledge and confidence in their ability to assist in an emergency, or through the use of DAN Training as a tremendous business tool in generating continuing education and repeat business. DAN Training has something to offer divers of every level, and it does so not less for our Business Members. It has proven especially effective in climates where colder seasons take their toll on business; with no in-water training required and only a few hours needed to complete programs, DAN Training keeps divers coming to you year-round.

Things to Know About Ordering DAN Training Materials:

- DAN Student materials are available for sale only to "active" status DAN Instructor Trainers, DAN Instructors and Business Members with a DAN Instructor Trainer or Instructor on staff.
- DAN Instructor Qualification Course materials are available for sale only to "active" status DAN Instructor Trainers and to Business Members with a DAN Instructor Trainer on staff.

Dive Medicine for Divers Part 3 Student pages 381-4500

Basic Life Support for Dive Professionals Student Handbook 371-3900

Programs You Can Use

Student Membership Program

The DAN Student Membership Program provides up to \$20,000 of recompression treatment insurance to entry-level students for the duration of their entry-level training. Best of all, this coverage is provided at no cost to the enrolled student or their instructor.

By using the Student Membership Program, students take an important first step in integrating dive safety into their diving practices. Instructors also benefit from the program by knowing they are utilizing yet another risk management tool to keep their students safe. In exchange for introducing their students to DAN and taking the time to enroll them in the program, instructors also earn DAN Points that can be redeemed at DAN for products and membership.

Students can be enrolled in one of three ways:

- Students can enroll themselves online at www.DAN.org/students
- Instructors can enroll their students online at www.DAN.org/students
- Instructors can submit a class roster via email or fax (not the preferred method)

The Student Membership Program is open to any entry-level student who resides in the DAN America region (U.S. and Canada). Likewise, any certified instructor teaching in the DAN America region can utilize the program; they do not have to be DAN Instructors, although they will need to register with DAN in order to use the online enrollment option. Student Membership is valid as soon as a registration has been processed and a current Student Member number is issued. Coverage commences on the date the Student Member number is assigned and lasts six months or through the end of the final dive needed for entry-level certification, whichever comes sooner

DIDS (Diver IDentification System) "No Diver Left Behind"

Free to DAN Business Members, the Diver Identification System (DIDS) ensures dive leaders will always know that all divers have returned safely from their dives. The improved system helps divemasters track their divers at all open-water sites and on charter boats.

Each system consists of 1 or 2 DAN DIDS boards, each in red or white with 12 numbered DIDS tags, capable of tracking up to 24 divers at the same time. When combined with another diver roll call procedure, DIDS will help ensure no diver is left in the water.

How it works:

- Pre-dive, the dive leader assigns each diver an individually numbered DIDS tag.
- Before entering the water, the diver removes the tag from the DIDS board and clips it to his or her BCD.
- After each dive, the diver unclips the tag from his or her BCD and returns it to the DIDS board.
- Before pulling up anchor or leaving the dive site, the dive leader verifies that all DIDS tags have been returned.

Make sure none of your divers are left behind! Download the DIDS application at www.DAN.org or contact the Business Membership team about how you can start using the free DAN Diver IDentification System. It is supported by DAN Donors and DAN Corporate Donors

Trip Insurance Incentive Program

If you sell dive travel, you should be participating in the DAN Trip Insurance Incentive Program!

This program allows DAN Business Members the ability to offer their travel customers the benefits of DAN Trip Insurance coverage in exchange for a cash incentive for each referral.

It is easy to participate – there are no forms or applications to mail or money to collect and track. Everything is done online using our secure website through a custom link we provide you. By using this link from your website to ours, your business is automatically listed as the source of a trip insurance customer. At the end of each month, DAN pays you 20 percent of the total trip insurance premium collected from your referred customers.

If you would like to be a part of the DAN Trip Insurance Incentive Program and offer DAN Trip Insurance to your travel clients, please contact DAN Business Membership at 1-877-532-6776 to request your custom website link.
